

Superior and reliable tracking device for surveillance of valuables, large and small

Asset-Eye monitors the location of all your assets. Keep an easy overview of your assets by having daily reports from your Asset-Eye and track down, if it is stolen or lost

Monitor your assets in an easy way

Asset-Eye is a range of small battery-driven tracking devices, that monitor the location of all your assets. To keep track of the location, the device sends daily reports. It is smart and easy to use.

Track your lost assets

Are your assets lost or stolen - Asset-Eye provides the location with the accurate built-in GPS module. To stay even more in touch with your asset, it is possible remotely to increase number of positions and to activate the motion sensor.

Asset-Eye Gold

Asset-Eye Silver

Asset-Eye Bronze

Keep track

Always know, where your assets are by monitoring on web, smartphone or tablet. Set up email alerts and notifications to receive a warning in the event of an unwanted incident. Easily manage your alarms and functions remotely.

On the move

Activate the built-in motion sensor and Asset-Eye will send a position, if your asset is moving. Moreover, activate the notifications to get an alert.

Invisible – but visible to you

Asset-Eye is based on advanced GSM technology, which makes it almost impossible for an intruder to track or jam the device – not even with the use of advanced equipment.

Long battery life

Asset-Eye fits many purposes. The range of small sized devices combined with an extremely long battery lifespan makes Asset-Eye a great investment.

Smart and easy to use

Easy to mount. Simply place Asset-Eye on an object, that you wish to monitor and protect - no assembly or wires are required.

Find your lost assets

Track the position of your lost or stolen asset in a secure way by using a combination of GPS, GSM and RF technology. As the device is small, easy to hide and difficult to trace for unauthorized, the recovery rate is extremely high.
