

Superior and reliable tracking device for surveillance of commercial skips.

Skip-Eye monitors the location of all your commercial skips. Keep an easy overview of your skips by having daily reports from your Skip-Eye and track them down, if they are stolen or lost

Monitor your skips in an easy way

Skip-Eye is a range of small battery-driven tracking devices, that monitor the location of all your skips. To keep track of the location, the device sends daily reports. It is smart and easy to use.

Track your lost skips

Are your skips lost or stolen - Skip-Eye provides the location with the accurate built-in GPS module. To stay even more in touch with your skip, it is possible remotely to increase number of positions and to activate the motion sensor.

Keep track

Always know, where your skips are by monitoring on web, smartphone or tablet. Set up email alerts and notifications to receive a warning in the event of an unwanted incident. Easily manage your alarms and functions remotely.

On the move

Activate the built-in motion sensor and Skip-Eye will send a position, if your skip is moving. Moreover, activate the notifications to get an alert.

Invisible – but visible to you

Skip-Eye is based on advanced GSM technology, which makes it almost impossible for an intruder to track or jam the device – not even with the use of advanced equipment.

Long battery life

Skip-Eye fits many purposes. The range of small sized devices combined with an extremely long battery lifespan makes Skip-Eye a great investment.

Smart and easy to use

Easy to mount. Simply place Skip-Eye on an object, that you wish to monitor and protect - no assembly or wires are required.

Find your lost skips

Track the position of your lost or stolen skip in a secure way by using a combination of GPS, GSM and RF technology. As the device is small, easy to hide and difficult to trace for unauthorized, the recovery rate is extremely high.
